Street Handball Rules (Short description)

The game that can be played by everyone across sexes, ages, and in line with fair-play rules.

"Keep it simple" - Few rules.

- Play fair with no physical contact.

- No dribbling. Max. 3(4) steps.
- 4 vs. 4 persons = Four-a-side or less or more.
- Field 10m(13) wide x 20m long or less or more.
- **Played against 2 goals***. With two goal area zones.
- Goalkeeper takes part in the attack. (**Substitution****)
- After a score, the game is set to start from the goal.

The next rules are only for inspiration; it is up to you to determine how to play Street Handball in your neighbourhood, market place, school yard, parking lot, outdoor/indoor handball field, grass area, street pitch or mini pitch.

- Non-aggressive defence is recommended. - After an attack, the team must return home and touch or stand on the line of the goal area before they can defend. - You cannot make an attempt on goal until your teammates have touched the ball.

- Let the game "flow", avoid too many stops, e.g. in case of slightly overstepping lines, 4 steps, etc. - A 7-meter (penalty) throw is awarded in case of physical contact with an opponent, or a push, etc. - After the match, shake hands with the opponent and say, "Thank you for a good match".

- Any handballs may be used, especially soft and street handballs.
- **The scoring system*****: For very young children we recommend not to count the goals/points scored.

- Rules / arbitrations are settled through dialogue among the players or through a **Match Instructor******.

The most important thing is to have fun.

- Play and have Fun (Mix girls and boys) - Perhaps with music / DJ ;D
- Have a great time, enjoy the team spirit, and observe fair play.

***The scoring system:

Quote from a street-handball event in Denmark, "We were counting goals up to around 3 and it seemed that the Instructor and later the players forgot to keep track of the score, but the match continued, and the kids enjoyed it and had fun. Finally, prizes were awarded by way of a draw."

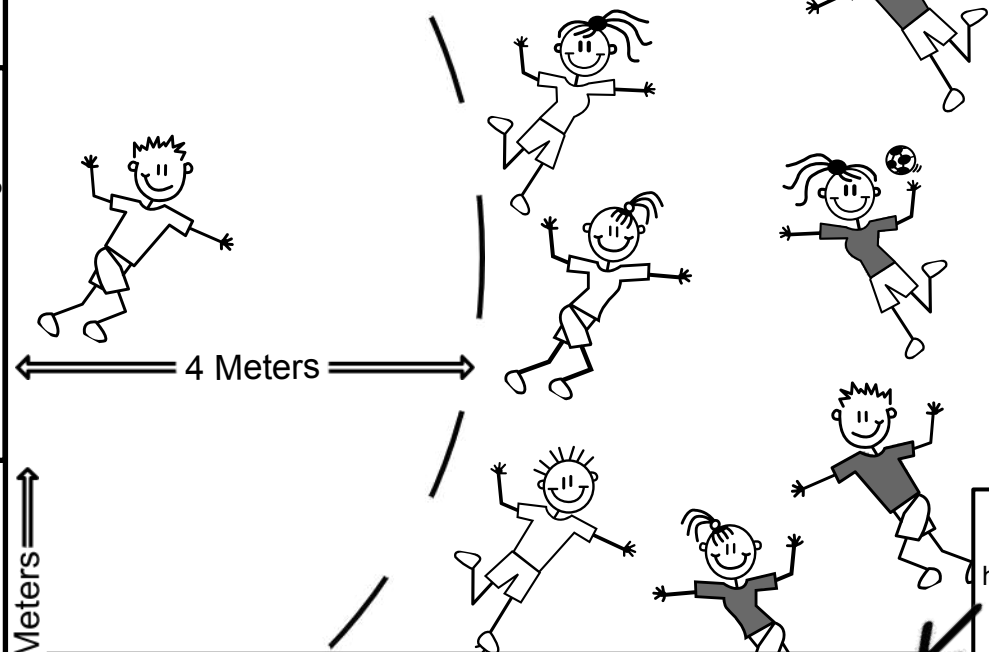

**Substitution:

The person throwing at the goal has to swap with a substitution player who must then become defence or goalkeeper. (In this case, the substitution player is allowed to stand next to the goal ready to step in when the thrower exits the pitch at the centre line.) Remember. There are no fixed line-up roles.

*A pitch / court with 2 goals

provides more fun for everybody and it might even improve your overall fitness and let new handball players see how much fun the "real" game is. Playing towards 1 goal is "fine", but one might wonder why football has become such a widespread sport? We Do Not think it would have been, had it been played with only 1 goal frame.

- Mini goal, 2.4 meters wide x 1.6 meters high.

4 Meters

3 Meters

10(13) Meters wide

20 Meters long
