ETNA NORD BY JEEP

This is once-in-a-life experience you will never forget. Today we visit - by jeep - the highest active volcano of Europe, now included in the list of UNESCO World Heritage Sites. Each jeep can host from 4 to 6 pax + driver, on one of them we will have an expert vulcanologist who will be our guide – connected to all jeeps by radio system – to discover the north slopes of the mountain. “It is an iconic site encompassing 19,237 uninhabited hectares on the highest part of Mount Etna, on the eastern coast of Sicily. Mount Etna is the highest mountain and the most active stratovolcano in the world. The eruptive history of the volcano can be traced back 500,000 years and at least 2,700 years of this activity has been documented. The almost continuous eruptive activity of Mount Etna continues to influence volcanology, geophysics and other Earth science disciplines. The volcano also supports important terrestrial ecosystems including endemic flora and fauna and its activity makes it a natural laboratory for the study of ecological and biological processes. The diverse and accessible range of volcanic features such as summit craters, cinder cones, lava flows and the Valle del Bove depression have made the site a prime destination for research and education”

The excursions follow the roads and paths of Etna in total safety for both participants and their vehicles. The goal is to introduce you to an area with nature, climate and splendid landscapes that deserve to be experienced. To do this, we provide you with a thousand different ways to experience and learn to respect the mountain. We will awaken that spirit of freedom that emerges when you traverse roads and paths surrounded by nature to discover new destinations and horizons with the prior permission of local authorities, following itineraries that also take into account the culture and ethnicity of Etna's traditions. We recommend to have trekking shoes, a wind-jacket and a cap with you. Driving back to the slopes of the volcano enjoy a wine and honey tasting and a typical sicilian lunch in a wine cellar. After lunch, we drive north to Messina in time to board cruise ship.

NOTICE! PLEASE REFER TO YOUR QUOTATION TO MAKE SURE WHICH ENTRANCE FEES ARE INCLUDED IN YOUR PRICE.
OPENING HOURS MAY VARY AND MUST BE CHECKED IN ADVANCE. IT MAY NOT BE POSSIBLE TO VISIT EACH OF THE DESCRIBED SITES.
