- ◇ Official certification

We are raising the standard of Nuad Thai (Thai massage) in Sweden.

Our certification programme fosters ethical business practices amongst Nuad Thai business operators in Sweden. We empower the women who run and work in these salons, and create a positive image of Nuad Thai amongst the general public.

In 2023 we opened Nuad Thai Nordic (Training & Certification Center) in Malmö. This comprehensive learning center offers training and includes a fully operational massage salon that provides an example of an ethical and sustainable Thai massage business.

Policy and advocacy

We research and communicate the issues that are relevant to Thai people in Sweden.

ThaiWISE is a bridge between service seekers and service providers. As part of our mission to empower Thai women in Sweden, we seek to communicate the concerns of this group to Swedish authorities, services and institutions.

We partner with educational institutions to conduct research on issues that affect Thais living in Sweden.

We also communicate with policy makers, raising awareness of the issues that vulnerable populations face.
