This book is © Lonnie Readioff 2017, though the original charts that this book is derived from were first produced in Record Retailer (1960-1967).

The book is presented on an as-is basis. While every effort has been made to make sure it is free from defects I will not be held responsible if it does nasty things to your computer. Though it shouldn't. But if it does, it's not my fault.

## Notes on the text

As with any book of this nature there are mistakes inside its pages. I would be stupid to think that there were none. So, if you spot a mistake and let me know, I'll correct it and you'll get your name in the book. Drop me an email at [the14thdoctor@gmail.com](mailto:the14thdoctor@gmail.com) and I'll check out the error, though I also welcome praise and criticism, both for the book and the layout of the book.

Various publication errors, including incorrect positions, have been identified and corrected by reference to the original chart issues. Corrections to titles, label details and other information by reference to internet searchers and copies of the original records.

Titles may be different to other publications, as I have tried to focus on the exact titles used on the cover where at all possible.

I'd also like to thank my wife for encouragement in this project.

## Further Reading

George R. White has produced an excellent book on the EP charts entitled "British Hit EPs 1955-1989" and this is strongly recommended as it also includes the weekly charts and numerous covers from the EP's. This book has been an invaluable cross-reference for myself in compiling the work here, and I strongly recommend that you purchase this book as it is excellent. This can be purchased from the publisher website :-
