Summer 2020

## **A wonderful and adventurous summer stay at Storsjö's Green Footprint**

During a month-long roadtrip in Värmland, Dalarna and Jämtland (with our dog and a friend who is also a nature lover), we spent a little over a week in Lykke and Orest's cosy guest house by Storsjön at the end of July 2020. We warmly recommend it to anybody who likes to explore all that Swedish nature can offer. The Green Footprint is beautifully situated so that you have easy access to enjoy the ever-changing views over the lake, take a canoe trip or hike in the forest right nearby. It is also very close to a range of extremely varied landscapes and breath-taking sights, which allows you to experience waterfalls, snow-covered mountains and the high plateaus with cloudberries, reindeer, birds and other wild-life.

We saw a lot of the area and would still like to come back and explore more! Apart from active and adventurous days, we also enjoyed just relaxing at the Green Footprint and getting insight

into Lykke and Orest's unique way of life and the innovative skills it takes to live off-grid and manage the property. Lykke and Orest are extremely generous and helpful hosts – we received invaluable advice and crucial support when we needed it. Our dog Rocco found new playmates in Zarwoe and Láska since they were all able to run freely on the property. As a dog owner this was an extra treat that Rocco was also welcomed.

We were all well taken care of, had an unforgettable week and do not hesitate to recommend a stay at Storsjö's Green Footprint!
