

Human Trafficker Guide

You will be portraying the Human Trafficker, a ruthless business person who can smuggle refugees over borders, if they can pay the price.

You pretend to offer a safe way to cross the border, but often there is a lot of risk involved. Your main motivation is to make a lot of money by taking advantage of the difficult situation the refugees are in.

Your Task

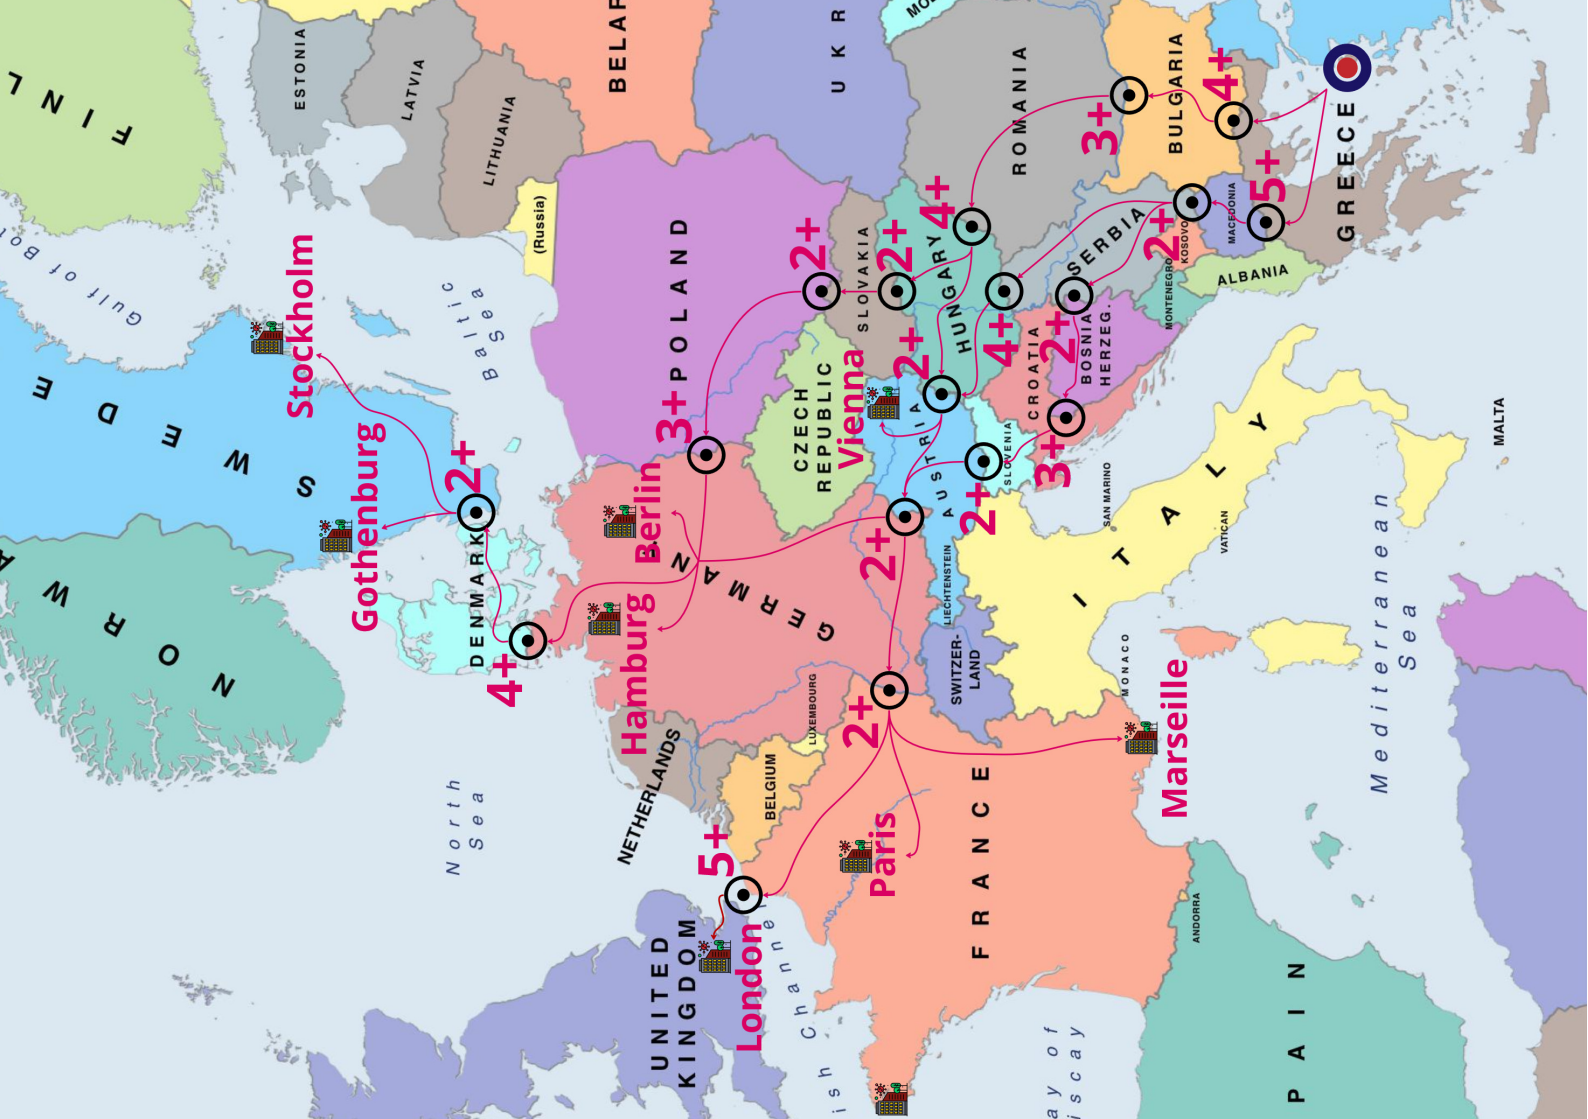

- 1: Get as many refugees as possible to pay you to cross a border. Get as much money out of each refugee as possible.
- 2: You also buy jewellery from the Refugees. You will pay 3 Euro cards for 1 Family Jewels card.

The Rules

- You can take up to 4 refugees every 8 minutes. Set a timer or use a watch.
- The price to cross a border depends on the difficulty of the border.
 - 2+ cost 4 Euro cards
 - 3+ cost 6 Euro cards
 - 4+ cost 8 Euro cards
 - 5+ cost 10 Euro cards
- Each payment is for a car that can take up to 4 refugees at a time. So it is better if refugees work together.
- Refugees need to be at the same border crossing to work together.
- You are allowed to contact refugees and try to sell your services.
- You can try to sell your trips for more money than below. Or for less money if you cannot get people to pay the regular price.

What do you need

- Something to keep the time
- 6 Euro cards. (Go get more if you need)
- Map of borders
