

DENTAL IMPLANT INFORMATION PACK

**TIWARI
WATSON**
DENTAL CARE

The fear of losing our teeth is something many of us experience. Today however, tooth loss does not have to be a permanent problem. Our dental implant system provides a reliable, natural looking and cost-effective way of replacing teeth – whether you have lost one, several or all of them.

Benefits of choosing Tiwari Watson Dental Care for Advanced Dental Implant Treatment:

- **Free Consultation:** Join us for a no obligation chat about your smile with our treatment coordinator Bili and discuss your treatment/finance options over a relaxed cup of tea or coffee.
- **Highly Experienced Dentists:** When choosing us for dental implants you're placing your trust in a highly qualified professional. Our implant dentist, Joe, holds a master's degree in implantology from the University of Manchester, after completing two years of specialised study focused exclusively on dental implants. This sets us apart, as not all dentists performing implants have such a dedicated qualification in this field. Joe is also a proud member of the International team of Implantology (ITI), ensuring he stays at the forefront of the latest techniques and innovations in implantology dentistry. With Joe's expertise and advanced training, you can feel confident that your treatment is in the hands of an experienced professional committed to delivering the best results.
- **Friendly, Caring Team:** We promise to always greet you with a smile and do everything we can to ensure you feel comfortable and relaxed whilst you are in our care.
- **Multi – Award Winning Practice:** Our awards for outstanding patient care include best treatment of nervous patients, best team & Practice of the Year UK at The UK Dentistry Awards.
- **State of the Art Equipment:** We offer 3D x-raying software, intra oral digital scanning & 3D printing meaning all your implant treatment can be carried out under the one roof.
- **Free 3 Year Warranty:** All our dental implants come with a 3-year warranty subject to annual checks and bi-annual hygiene visits.
- **0% Finance:** Spread your treatment cost over monthly affordable amounts.
- **5 Star Reviews:** Check out what our patients have said about us with over 1000 online reviews (Google, Facebook and Working Feedback) with an overall 5* rating.

Single Tooth Dental Implant

Dental Implant Bridge

Dental implants are a fantastic way to replace one or several missing teeth. They are fixed therefore no need to remove, long lasting, durable and very aesthetically pleasing.

Do you dislike wearing dentures?

If some or all of your upper or lower teeth are missing you don't have to settle for a bulky, loose plastic denture that is affecting your speech, taste or confidence. We can replace your teeth with dental implants. The number of implants will vary for each patient. Your new teeth will be firmly supported by the implants allowing you to smile again.

Removable Dental Implant Retained Denture

Implants can also be placed to stabilise and retain a denture. The denture is simply clipped in to place where it is retained by the dental implants and supported by the soft tissue. It can easily be taken back out each night for cleaning.

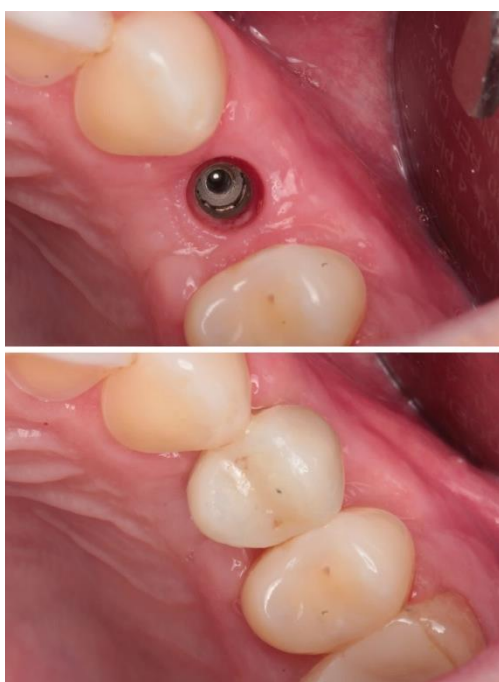

Fixed Dental Implant Retained Bridge

If all of your upper or lower teeth are missing, a fixed implant restoration can effectively replace your denture. The number of implants used will depend on individual needs, but these implants provide a stable foundation for the new teeth, helping to stimulate the jawbone and preserve its structure. With a fixed restoration, there is no movement while eating, and you won't have the plastic coverage of your palate that comes with traditional dentures. This design allows for a

more natural feel and function, making it the closest option to having your original teeth.

Before & After Results from Dental Implant Treatments

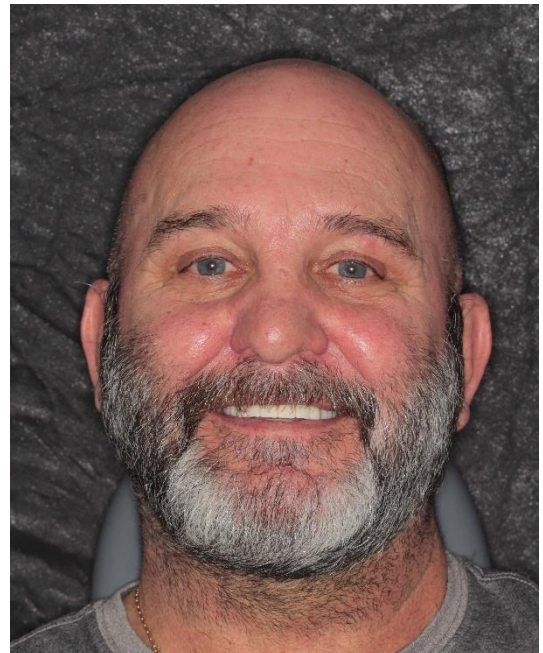

Meet our patient Anthony, He first attended the practice for a consultation with our dentist Joe looking for ways to improve his smile. **He was unable to chew properly due to missing teeth which was affecting his confidence and causing him to hide his smile.**

His ideal outcome was to have **‘a decent set of teeth to eat and smile with’.**

After an implant assessment with Joe, he created a detailed treatment plan with Anthony which included removing his remaining top teeth and replacing them with a **fixed implant retained bridge** to give him his desired results.

Anthony had a temporary set fitted the same day his teeth were removed meaning there was no need for a temporary denture for any stage of Anthony's journey.

Visit our You Tube channel to find out what Anthony had to say about his dental Implant experience at Tiwari Watson

Here is what some of our patients have had to say about their dental implant journey with Joe and the team. You can find more testimonials on our social media pages and website.

James Fuller

Just finished my treatment at Tiwari Watson dental care, bridge work and implants, my dentist Joe is amazing and the best dentist ive ever had, My dental nurse Tiegan was also amazing and a total professional,
Great place, Great staff,
Thanks to everyone at Tiwari Watson dental care and big thanks again to Joe for giving me back my smile and my confidence

Lynsey Smith recommends Tiwari Watson Dental Care.

Joe is a fantastic dentist! I recently had a dental implant fitted - delighted with the result :) Joe made sure I fully understood the process and I received excellent care both during and after the procedure. All of the team at Tiwari Watson are highly professional and courteous to their patients. They are an ethical practice who also care about their local community, evident through their participation in charity initiatives in the area. I would never go anywhere else for my dental care!

Kerry-Ann Dougan

I've just finished my dental implant treatment with Joe and I couldn't be happier. Joe & Tiegan were both amazing and put me at ease every step of the way. Everyone at the practice is so friendly and the aftercare package following the implant procedure was 10/10. I would thoroughly recommend Tiwari Waston and can't wait to show off my smile 😊

Margaret Boyle

I would highly recommend Joe and his team for my excellent Dental Care. From the moment I entered the practice I felt very much at ease. I have just finished my Implant treatment and I am one very happy lady it is so nice to smile again. I will definitely be returning for any future treatment.

Linda L

I have just complete the fitting of dental implants at this surgery. I cannot leave a review without mentioning the stunning surroundings and certainly was a pleasure. The staff are very professional and friendly and a special thank you to Joe who gave me back my smile. I would highly recommend dental implants and most importantly this dental practice, I cannot praise the overall experience enough other than book an appointment, have a consultation and be rest assured you will be making the right decision as you will be in professional hands. A big thank you to all

Margaret Mclauchlan

I would highly recommend Joe and his team excellent dental care and I was at ease all through my implants journey for which I am very happy with and I would trust Joe and his team with any future dental work
Thanks 😊 for everything 😊

Meet Our Implantologist at Tiwari Watson Dental Care

Dr Joseph Watson

BDS, MSc (Implantology), MFDS RCPS (Glas)
GDC REG NO: 210084

Originally from Belfast, Joe graduated with commendation in General Dentistry from the University of Glasgow in 2011. In 2013, he completed post-graduate training in IV sedation for nervous patients. Joe is a member of the **British Dental Association and the International Team for Implantology (ITI)** and is also trained in the use of Invisible Braces and Anti-Wrinkle Injections. With a strong commitment to personal development and professional excellence, Joe has also successfully passed his Diploma to become a member of the prestigious **Royal College of Physicians and Surgeons of Glasgow**. He then went back to university on a part time basis in 2016 for two years to study for a **Master's degree in Dental Implantology** at the University of Manchester.

In his spare time, Joe enjoys playing golf and spending time with his family and friends.

Joe was also a finalist for **BEST YOUNG DENTIST UK** at the **UK DENTISTRY AWARDS 2022**.

FQA

What are dental implants?

A

Dental implants can be used to replace missing teeth. They integrate with the bone to provide support for crowns and dentures.

Q

What will happen without treatment?

A

Your jawbone begins to shrink from lack of stimulation. Losing your teeth will affect your smile and change the shape of your face, causing you to look prematurely aged.

Q

Is implant placement painful?

A

No, dental implants are typically placed under local anaesthesia. Most treatments can be completed within a dental implant practice.

Q

How soon may I return to work after treatment?

A

You may return to work the next day unless otherwise instructed by your clinician. You may be prescribed medication to alleviate any minor discomfort you may have.

Q

What if there is not enough bone or gum tissue for the dental implant?

A

A graft may be needed if your clinician determines there is not sufficient bone or gum tissue.
