

TriTiCon Data handling Officer

1. Background

TriTiCon is a consultancy company, providing advisory and consultancy services, and the company do not as part of normal business processes collect, manage or store any data, hereunder no personal data.

However, to support daily operations, limited information about clients, providers and employees are maintained by TriTiCon. This is typically contact information for clients and providers, and Human Resource information (Contact details, salary and bank information, CV for employees). It should be noted that this information is kept in original and operational format, (email address book, CVs as word or pdf-files etc, and not stored in databases or other structured format

2. Data Handling Officer

The TriTiCon Data Handling Officer is responsible for ensuring consent for storing personal data and handling requests for information, update, or deletion of personal data.

On 24-May-2018, Magnus Värendh has been appointed Data Handling Officer at TriTiCon ApS. The appointment is until further notice with a three months' notice period.
