

» Vocational training is very important!
 Young people need as much information as they can get to improve their life chances. I already knew about training opportunities, but thanks to "Mobile Training" I am even better informed.

Find success with vocational training!

Help young people in your community find their way into the world of work.

We give you useful and specialised background knowledge covering:

- vocational training
- (a wide range of) careers and career opportunities
- important points of contact
- how to write applications

Become part of our "mobile team".

- Exchange ideas with other communities in a relaxed environment
- Take part in events about education and training
- Share your knowledge in your community

Our seminars:

consist of 3 modules lasting 90 minutes each

certificate

and - we come to you!

are free of charge and available in a choice of languages (upon request)
