NAUTICAL INFORMATION

Warnemunde: is a seaside resort and a district of the city of Rostock in Mecklenburg, Germany. It is located on the Baltic Sea and, as the name suggests, at the Warnow River estuary. Being a center of maritime traffic, the district of Warnemünde includes numerous navigational aids, the oldest of which is the lighthouse, built in 1897 and still in use today. In summer, the tower, about 37 meters high, allows visitors to enjoy a spectacular view of the Baltic Sea and the northern districts of Rostock. The other famous landmark of Warnemünde, the nearby Teepott with the curved roof, is an interesting living example of East German architecture. Built in the Bauhaus style and inaugurated for the first time in 1926, burned at the end of the Second World War. Rebuilt in the 1960s with a curved roof and renovated in 2002, today it houses various restaurants. At 19.00 we will begin the unmounting maneuver to continue towards Gdynia.

If you cannot attend the drill due to disability or illness, please contact the Special Needs Hostess at Reception - Guest Service on deck 5, Tel 99, to schedule a dedicated briefing. During the emergency exercise, all onboard services will be temporarily suspended.
