SKABELONER

KARAMELLER

Alle karameller laves ud fra samme fremgangsmåde, der skal blot klippes/skæres den ønskede form og størrelse.

DU SKAL BRUGE

- Printede side med skabelonerne
- 2 forskellige farver karton/papir
- Skarp papirsaks eller hobbykniv og skæremåtte
- Symaskine med sytråd

SÅDAN GØR DU

For at lave en karamel skal der bruges 7 dele (1x A, 2x B, 4x C)

Del A og B er samme farve.

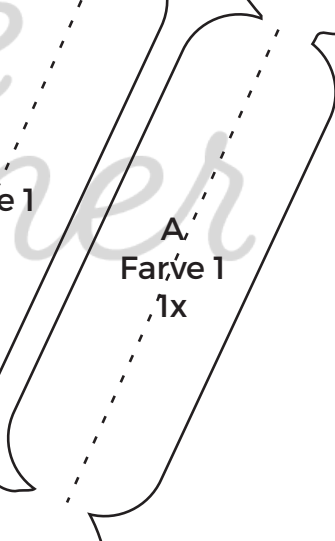

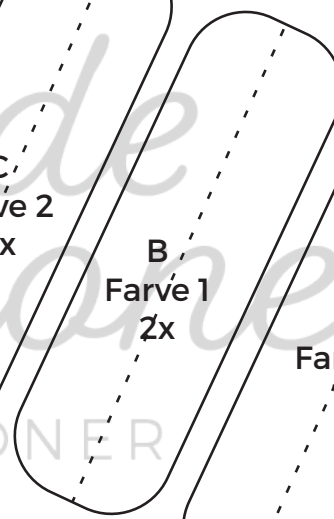

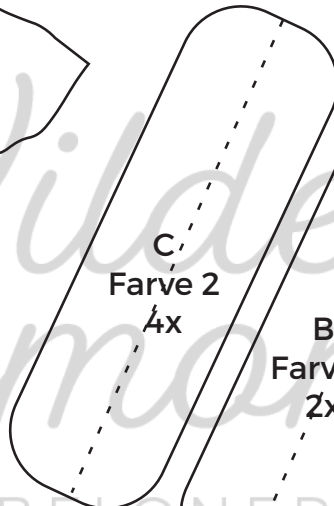

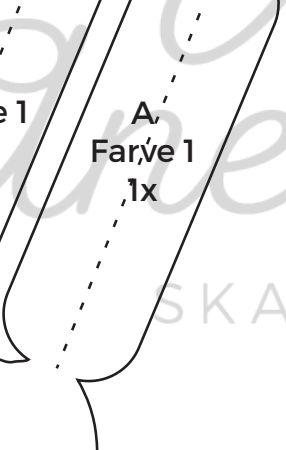

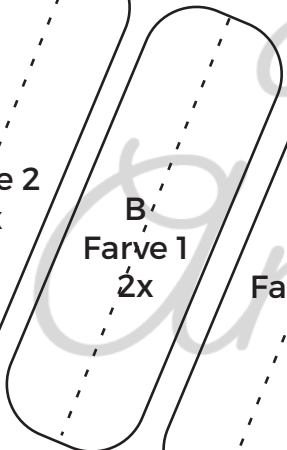

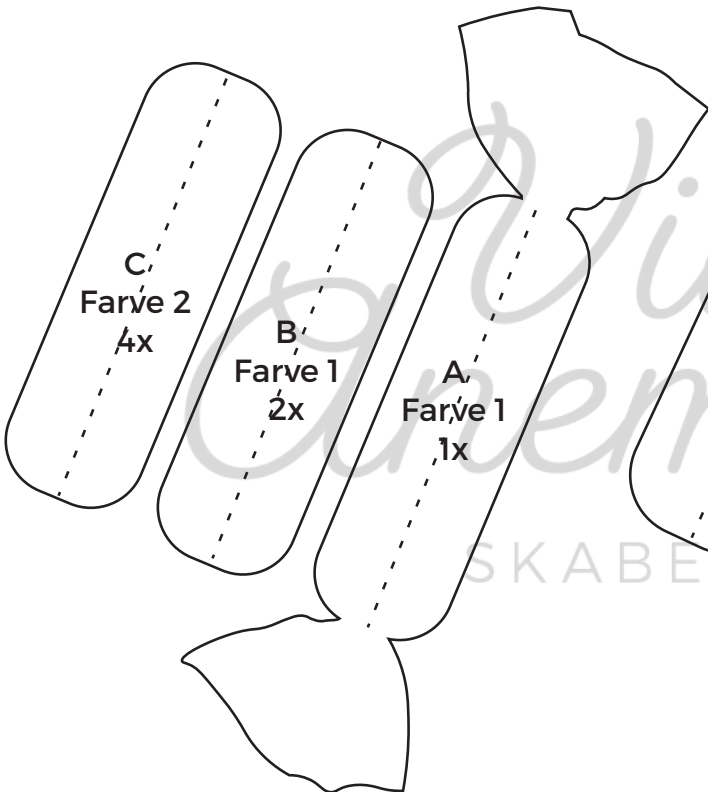

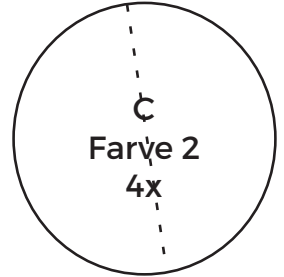

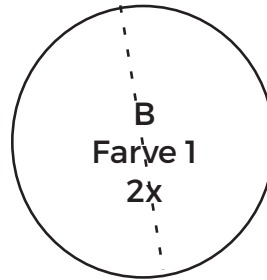

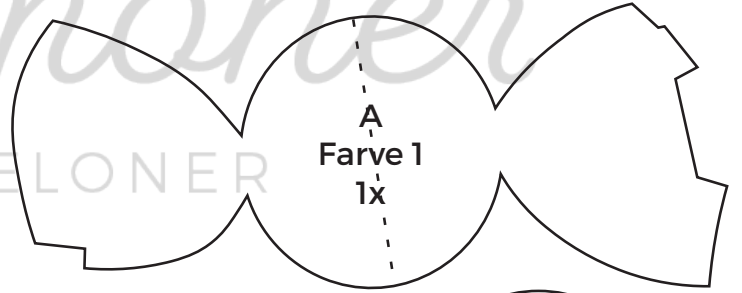

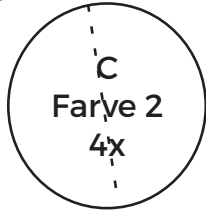

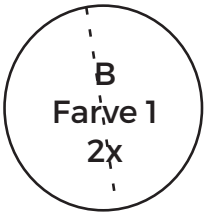

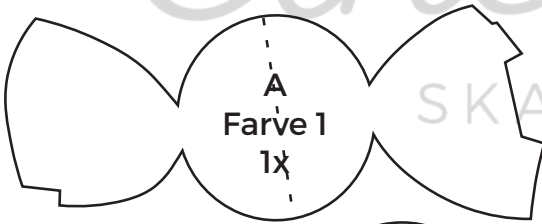

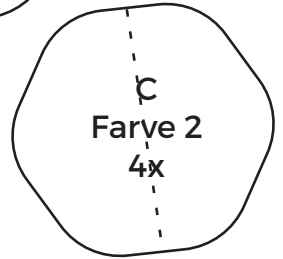

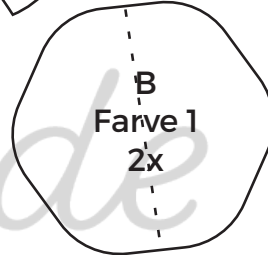

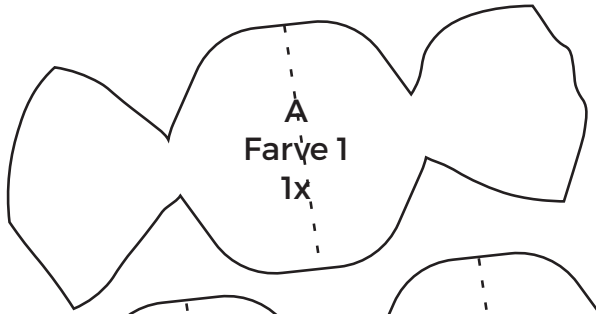

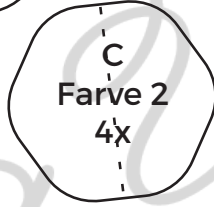

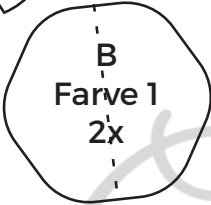

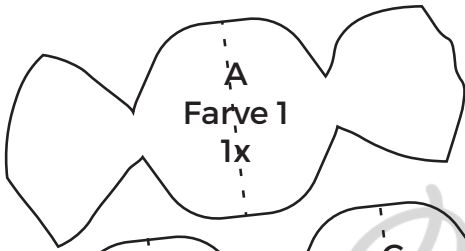

Når alle dele er klippet/skåret, lægges de i følgende rækkefølge: C (med den pæne side af papiret nedad), B (nedad), C (nedad), A (opad), C (opad), B (opad), C (opad).

Sy de 7 dele sammen på midten (stiplede linje).

Fold alle B og C dele op, så at det former en karamel.

Hæft enderne i den ene ende og klip det resterende sytråd af. I den anden ende bindes en knude, så at der tråd nok til at karamellen kan hænges op.

Del endelig dine færdige kreationer på Instagram:
