

# The Volterra Collection

## *Preliminary report 2019*

The study of the antiquities of the Volterra Collection was continued by Mette Moltesen, Germana Vatta and Maria Grazia Granino Cerere, and a new photographic survey was conducted in October 2019 in preparation of the final publication (Fig. 1).

We are infinitely grateful to the owner of the collection of antiquities at the Villino Volterra, professor Virginia Volterra, for her hospitality and support for our work. The corona crisis with closed libraries and ban on travel has sadly delayed the progress of our work considerably.
