

DRAFT

A66 NTP Appleby to Brough - Warcop

Possible alternative alignment north of existing A66 and alternative junctions to Sandford and local network

This outline alignment has been interpreted from a route suggestion by Stakeholders and is subject to further assessment. Note that the plan does not include environmental mitigation and drainage. This option would require landscape mitigation and drainage proposals similar to those shown on the plans at Statutory Consultation. This alternative route is not an option for consultation.

Scale 1:5000 at A1
