SUBJECT: Project Number SWF-2019-00443, Trinity River Bioremediation Pilot Plan

Ms. Virginia Kilgore
Water Is Alive
710 Ida Vista Court
Duncanville, Texas 75116
virginia@waterisalive.org

Dear Ms. Kilgore:

This letter is in regard to information received May 18, 2021, and subsequent information received May 28, 2021, concerning a proposal by Water Is Alive to conduct bioremediation activities in the city of Dallas, Dallas County, Texas. This project has been assigned Project Number SWF-2019-00443. Please include this number in all future correspondence concerning this project.

Under Section 404 of the Clean Water Act the U.S. Army Corps of Engineers (USACE) regulates the discharge of dredged and fill material into waters of the United States, including wetlands. USACE responsibility under Section 10 of the Rivers and Harbors Act of 1899 is to regulate any work in, or affecting, navigable waters of the United States. Based on your description of the proposed work, and other information available to us, we have determined this project will not involve activities subject to the requirements of Section 404 or Section 10. Therefore, it will not require Department of the Army authorization pursuant to Section 404 and/or Section 10.

Thank you for your interest in our nation's water resources. If you have any questions concerning our regulatory program, please refer to our website at <http://www.swf.usace.army.mil/Missions/Regulatory> or contact Mr. Eric Dephouse at the address above, by telephone (817) 886-1820, or by email Eric.J.Dephouse@usace.army.mil, and refer to your assigned project number.

Please help the regulatory program improve its service by completing the survey on the following website: http://corpsmapu.usace.army.mil/cm_apex/f?p=regulatory_survey

Sincerely,
