

# NB IoT devices

The NB family are simple devices for the monitoring of temperature, humidity, water leaks, voltage, current and other values in remote places. The Narrowband IoT devices are battery powered with a battery lifetime up to 3 years. The devices connect to the SensDesk.com portal where you can monitor and control your entire system. Your project is set up in just a few clicks and you can get your data in minutes.

### NB-2x1Wire

A simple device for monitoring temperature, humidity and more in remote places. Narrowband IoT connectivity.

### NB-WLD

NB-WLD is a water leak detector with Narrowband IoT connectivity. It uses a very sensitive detection cable.

### NB-2xIn

An easy to use device with Narrowband IoT connectivity for monitoring digital inputs in remote places.

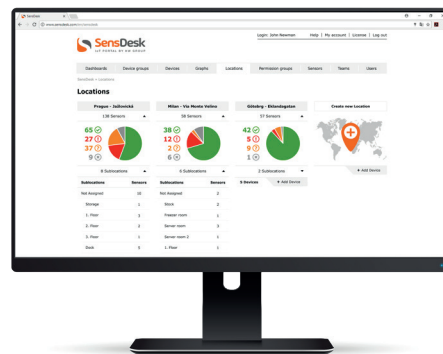

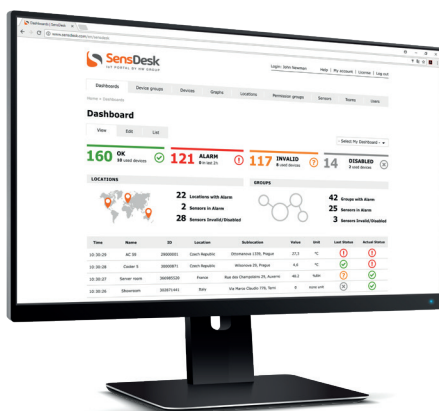

### NB-2xOut

Narrowband IoT device with two relay outputs, that can control remote technology manually or based on conditions.

## NB Devices Features

- Narrowband IoT (NB-IoT) connectivity
- Internal battery with up to 3 years lifetime
- External 5V DC power
- Simple installation, remote device adoption
- Hundreds of available sensors
- Secure and reliable
- Easy setup with a few clicks
- Metal housing, DIN and rack mount available

## Why use SensDesk.com?

### Remote monitoring

Temperature, humidity, power consumption, intrusion, water detection and many more...

### Event alerts

Get alarms over SMS or e-mail and be sure you can respond to the event in time.

### Reports and graphs

Generate automatic reports and access data history with just a click.

### Remote output control

Use conditions to automatically respond to alarms or control outputs manually.

### User friendly and reliable

Easy for home users, robust, customizable and scalable for business.

### SensDesk can connect to third party systems

You can send your data to other applications using XML, MQTT, SNMP or ModBus TCP.
