

Crystal clear: With the new AQUAPAL®

How the leading drinking water hose enables you to meet the strictest standards and regulations with ease.

Crystal clear: With the new AQUAPAL®

The requirements for the application of drinking water hoses are extremely high. And rightly so. With the AQUAPAL® you can effortlessly master these challenges.

Safer than ever: The AQUAPAL® is the leading elastomer hose featuring food and drinking water approval. It meets the most stringent guidelines and standards:

- The revised UBA-KTW-BWGL, DIN EN 16421
- FDA (177.2600)
- EU 1935/2004, 2023/2006 and 10/2011
- as of May 2021: WRAS and VP549 (under review)

As versatile as ever: This highly flexible hose is the ideal solution for use in the food and beverage industry. Further applications: Camping and caravan requirements, catering, in hospitals, at airports as well as at festivals and public events.
