

CONSTRUCTION SEATING

OFF ROAD SEATING MANUFACTURER

UnitedSeats for construction vehicles

“We unite your seat”

UnitedSeats is a worldwide manufacturer of off road seating solutions for the industrial, agricultural, construction and marine sectors. All seats are produced under contract for us in a state of the art modern 75,000 m² facility using the latest manufacturing techniques.

We are based in Zwijndrecht, the Netherlands from where we supply a portfolio of OEMS and Dealer network around the world. UnitedSeats remains committed to innovation, providing seating products and supported by excellent sales and service support.

Our in-house design capability allows us to tailor products for OEM and dealer specification. Our range comprises a selection of air and mechanical suspensions which are both high profile and importantly for small & compact construction machines low profile.

These suspensions can be combined with a wide selection of seat uppers and seat pans. Our skill is ‘Uniting your seat’.

Our construction seats are heavy duty and our latest models like the LGV120/C8 Pro can accommodate driver weights up to 150 kgs. Our MGV35 and MGV55 seats meet EM1 to EM3 & EM5 to EM9 for construction vehicle categories. All our suspension seats meet ISO 6683, seat belt strength approval, ISO 7096, construction vibration approval, and all SIP dimensions are according to ISO 5353.

A wide range of accessories is available from UnitedSeats, such as safety critical items, like seat belts and seat switches. Special armrests and pods are available to carry joystick controls for various machines. A wide variety of spare parts such as dampers and cushions can be supplied.

Above all, our priority is to supply seating solutions to maintain the health and safety of the operator. We also emphasize the need to maintain and repair damaged seats to prevent injury.

At UnitedSeats we've got your back!

We have seats for the following machinery:

-  Excavator
-  Large wheeled loaders
-  Medium wheeled loaders
-  Small wheeled loaders
-  Road rollers & compactor machinery
-  Backhoe loaders
-  Skid steer & compact track loaders
-  Site dumper
-  Telescopic handler
-  Bulldozer

Focus product range

LGV120/C8 PRO 3P

Our latest range of seats is heavy duty and ideal for large construction equipment such as wheeled loaders, excavators, large telescopic, bulldozers and compactors. The LGV120 suspension has a simple updown lever to adjust the air ride. It can accommodate drivers up to 150 kgs. It is available with 12v or 24v integral compressor and a mechanical MG120 is also available.

With the strong C8 Pro upper it can also be fitted with 3-point or 4-point seat belts. It can also be delivered with pods for joystick controls.
