

ACOUSTIC WALLS

Rockfon VertiQ®

VertiQ is an acoustic wall solution made of a 40mm stone wool panel. The visible surface is covered with a woven fleece, which provides an aesthetically pleasing finish with an appealing moiré structure. The rear side is finished with a mineral glass fleece. The edges of VertiQ C are painted.

The installation of VertiQ A wall panels can be achieved with:

1. System T (for standard impact resistance):

T24 38mm deep tees as intermediate profiles, J channels as perimeter trims and fixing brackets for direct fixing to the wall.

2. System HAT (for high impact resistance):

1mm thick HAT profiles as perimeter and intermediate profiles.

The installation of VertiQ C wall panels can be achieved with:

1. System C:

Aluminium perimeter profiles fastened to the wall with fixing brackets supporting panels along the bottom, aluminium corners and connection plates.
