

## Quick Start Guide: Creating Books in WriteReader

### Step 1: Click the “Books” tab

By default the Books tab will open for student users.

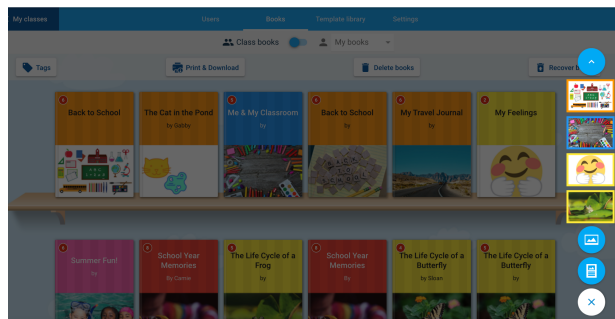

**Note:** If you have more than one class, you'll first need to select the correct class from your dashboard under “My Classes”.

### Step 2: Plus Button

Click the “plus” button to create a new book from scratch, or use a shared template.

**Note:** Both students and teachers can create books.

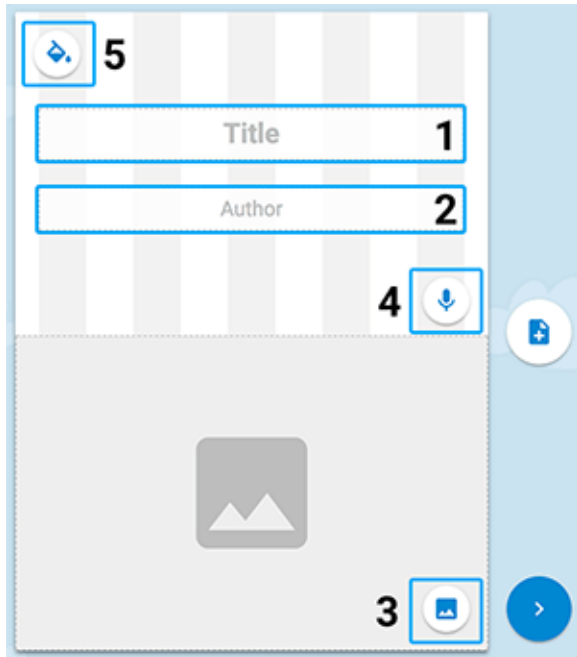

### Step 3: Choose a Book Type

Students can choose a template the teacher has shared, or select from a picture book or traditional book format. Learn more about template books [here](#).

## Quick Start Guide: Creating Books in WriteReader

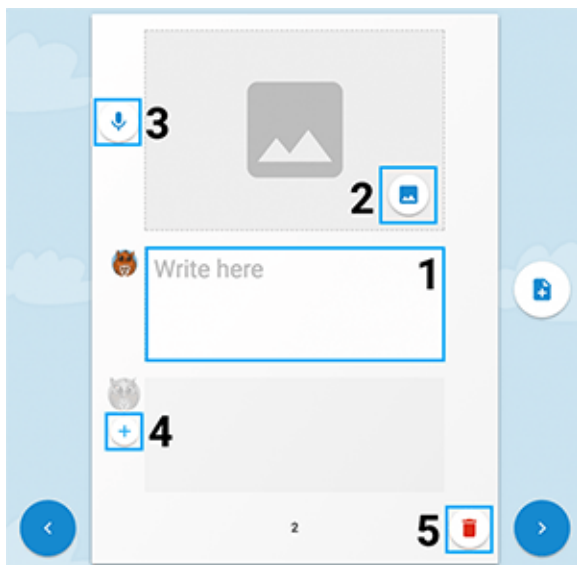

### Step 4: Book Cover

Edit the book cover:

1. Add a title
2. Add an author
3. Add a picture
4. Record a voice over
5. Change the color of the book cover

Click the page icon with + button to add an additional page.

### Step 5: Book Pages

Edit the pages:

1. Add text
2. Add a picture
3. Add a voiceover
4. Add educator writing (teachers only)
5. Delete the page

**WriteReader automatically saves the book as it's being edited, so there is no "save" button.**
